

Class 9 - Social Science

Understanding Society India and Beyond PART-I

History - Early Humans and Beginning of Civilisation

CBSE NOTES

History - Early Humans and Beginning of Civilisation - Challenge Worksheet

Strengthen your foundation with key concepts and basic applications.

Personal AI Tutor for CBSE Classes 6-12 & NCERT Help

edzy is a personal AI tutor for CBSE and State Board students, with curriculum-aligned guidance, practice, revision, and study plans that adapt to each learner.

Challenge Questions

Solve the following questions. Write your answers in the space provided.

1. Discuss the impact of climatic changes on the migration patterns of early hominins. How might these changes have influenced their social structures?

Hint: Think about how environmental pressures could alter human relationships and social hierarchies.

Challenge Questions

Solve the following questions. Write your answers in the space provided.

2. Evaluate the role of tool-making in the cognitive development of Homo sapiens. How did this skill contribute to social interactions?

Hint: Reflect on examples of tool use beyond survival—what does it tell us about the development of culture?

Solve the following questions. Write your answers in the space provided.

3. Compare and contrast how the discovery of agriculture transformed human societies in different regions. What were the consequences of these transformations?

Hint: Consider the initial benefits of food surplus versus the emergence of social inequalities.

4. Reflect on the significance of archaeological discoveries in reconstructing human history. What limitations does this method face?

Hint: What could future findings reveal that contradict earlier theories?

Solve the following questions. Write your answers in the space provided.

5. Analyze the importance of artistic expression, such as cave paintings, in understanding early human culture. How does this form of communication differ from spoken language?

Hint: What messages or beliefs might the art convey about the values of those societies?

6. Assess how the early Neolithic communities managed resources. What sustainable practices can be traced back to this era?

Hint: How did these practices resemble or differ from those in contemporary societies?

Challenge Questions

Solve the following questions. Write your answers in the space provided.

7. Explore the interaction between early civilizations, specifically the Harappan and Mesopotamian, focusing on trade. How did geography play a role?

Hint: What were the cultural exchanges that influenced technological or cultural advancements?

Solve the following questions. Write your answers in the space provided.

8. Debate the thesis that writing was the most significant innovation in early civilizations. What alternative viewpoints might challenge this idea?

Hint: What aspects of society might thrive without a written language?

9. Investigate the possible reasons for the rise and fall of the Harappan civilization. What lessons can modern societies learn from this?

Hint: How can an understanding of past civilizational dynamics inform current policy making?

Challenge Questions

Solve the following questions. Write your answers in the space provided.

10. Examine the diversity of cultures during the Mesolithic period. How did local resources shape this cultural diversity?

Hint: Consider specific examples of tools or practices that reflect local adaptation.

Check your answers with the solutions below.

1. Discuss the impact of climatic changes on the migration patterns of early hominins. How might these changes have influenced their social structures?

Solution: Analyze evidence of migrations in response to climatic shifts. Consider social organization and community collaboration during resource scarcity.

2. Evaluate the role of tool-making in the cognitive development of Homo sapiens. How did this skill contribute to social interactions?

Solution: Explore how tool-making reflects cognitive abilities and social cooperation. Contrast this with other species and consider its implications on survival.

3. Compare and contrast how the discovery of agriculture transformed human societies in different regions. What were the consequences of these transformations?

Solution: Relate agricultural practices to social stratification and village formation. Discuss both positive and negative societal impacts with relevant examples.

4. Reflect on the significance of archaeological discoveries in reconstructing human history. What limitations does this method face?

Solution: Discuss how archaeological evidence informs our understanding of early civilizations. Critically assess the issues surrounding loss of context and interpretation discrepancies.

Check your answers with the solutions below.

5. Analyze the importance of artistic expression, such as cave paintings, in understanding early human culture. How does this form of communication differ from spoken language?

Solution: Evaluate the role of art in cultural identity and communication, contrasting it with verbal communication's nuances.

6. Assess how the early Neolithic communities managed resources. What sustainable practices can be traced back to this era?

Solution: Investigate early methods of agriculture and resource management, emphasizing sustainability and long-term planning.

7. Explore the interaction between early civilizations, specifically the Harappan and Mesopotamian, focusing on trade. How did geography play a role?

Solution: Analyze trade routes and goods exchanged, considering geographical features that facilitated or hindered these interactions.

8. Debate the thesis that writing was the most significant innovation in early civilizations. What alternative viewpoints might challenge this idea?

Solution: Examine the effects of writing on governance and culture while considering oral traditions' roles in maintaining history.

Check your answers with the solutions below.

9. Investigate the possible reasons for the rise and fall of the Harappan civilization. What lessons can modern societies learn from this?

Solution: Critically evaluate environmental, social, and economic factors that influenced the Harappan's decline, linking these to contemporary issues.

10. Examine the diversity of cultures during the Mesolithic period. How did local resources shape this cultural diversity?

Solution: Analyze the relationship between environmental resources and the variation in cultural practices and technology in different regions.

Study smart, not hard - with Edzy!

For Students

- Practice past papers to get exam-ready
- Study with a timer to stay focused
- Revise regularly to build long-term memory

For Teachers

- Use Edzy to share quizzes instantly with students
- Save time with ready-made teaching aids
- Simplify test prep with structured resources

Before You Sleep:

Quickly review important notes - it helps memory consolidation.
